

## SGS FIMKO'S MEMBERSHIP IN CERTIFICATION SCHEMES

---

### INTERNATIONAL CB SCHEME

The IECEE CB Scheme is the world's international system for acceptance of test reports dealing with the safety of electrical and electronic products. It is a multilateral agreement among participating countries and certification organisations. A manufacturer utilizing a CB Test Report issued by one of the member organisations can obtain national product certification in all other member countries of the CB Scheme. The system covers safety and EMC requirements.

### CENELEC CERTIFICATION AGREEMENT (CCA)

The CCA is a Mutual Recognition Agreement covering all product categories. It enables a manufacturer who has obtained one of the European national marks.

### PAN-EUROPEN HAR SYSTEM

The HAR system is the oldest agreement proposing a common marking for a specific product category complying with harmonised European standards.

### ENEC AGREEMENT

The ENEC agreement proposes a single European mark, accepted and recognized by all participating Certification Bodies. It covers luminaires and associated components, transformers, power supply units, switches for appliances, IT equipment, automatic electrical controls, connecting devices, suppression capacitors and filters.

### EEPCA

EEPCA is the professional association of the European Certification Bodies active in the LVD area.
